

Duration: 60 minutes
Course Code: ONHS02

Course Description:

This course explains, in brief, why fires occur and what actions you must take to help prevent them starting and the actions you must take when they do. By completing this course you will be making your workplace a safer environment. This course is a variation on the Basic Fire Awareness course that contains information that is specific to employees of care and residential homes.

Who Should Attend Fire Safety Awareness For Care Homes Training?

- Any person who is expected to respond to a fire alarm or may actually be confronted by a real fire and who may be required or have the opportunity to use a fire extinguisher. These courses are also aimed at any person that has been allocated fire safety responsibilities in the prevention of fires and implement fire evacuations should a fire occur.

Course Contents:

- Chemistry of Fire
